

***Wildly stronger!
Keep ice longer!***

YETI[®]
COOLERS

THE COOLER YOU'VE
**ALWAYS
WANTED**
THE LAST YOU'LL
EVER NEED

How many coolers have you owned? The higher the number, the more you'll appreciate a YETI®. Our coolers are rotational-molded, using the same materials and process used to make whitewater kayaks. This process is more costly, but the result is a cooler with a dramatic durability advantage. And a YETI® keeps ice longer — a lot longer — with over twice the insulation compared to most ordinary coolers. YETI® Coolers are the ultimate in design, performance and durability.

WILDLY STRONGER!

YETI® Coolers are built to take the rugged abuse that comes with the way we work and play.

Unlike ordinary coolers, which are essentially disposable, YETI® Coolers are made to last! Broken handles, busted hinges, failed latches, caved-in lids, cracked corners... sound familiar? If you're like most, you've experienced all of these with the coolers you've owned. Even the most expensive ordinary coolers can't take the punishment dished out by the average outdoorsman, let alone the pros. That's why we make YETI® Coolers.

Rotational-molded construction makes YETI® Coolers virtually indestructible.

Roto-molding, the same process used to make whitewater kayaks, ensures impact resistance and long-term durability. Ordinary coolers are glued together and the seams separate over time. Both the lid and body of a YETI® are built with seamless, one-piece construction.

YETI® Coolers are certified bear-proof by the Interagency Grizzly Bear Committee (IGBC)!

YETI® Coolers meet IGBC standards for bear-resistant containers. They have been thoroughly tested in both controlled bear simulations and with wild grizzly bears. With locks in the integrated padlock ports of a YETI®, grizzlies get nothing but frustrated.

Features as tough as YETI® Coolers themselves

"A very well designed product. YETIs are built like a tank!"
-Jim Dungan, Houston, TX

NeverFail™ Hinge System

YETI®'s full-length integrated hinge system will not fail. A full-length, rust-proof aluminum rod connects and holds the body and lid together. Plus, hinge-stops are molded into the lid, so the hinge can't break.

AnchorPoint™ Tie-Down Slots

Tie-down slots are molded into the cooler body for solid mounting. They're perfect for securing your YETI® to a boat, truck bed, trailer or barbecue rig. Compatible Tie-Down Kits available (see Accessories).

LipGrip™ Handles

The integrated, recessed handles on a YETI® make solo carrying easier. Plus, they save valuable space and won't get in the way.

T-Rex™ Lid Latches

The heavy-duty rubber T-latches, with patent-pending technology and molded-in keepers, keep your lid securely closed and are built to last.

BearFoot™ Non-Slip Feet

Non-marking rubber feet help keep your cooler where you put it. They prevent sliding and keep your YETI® up off the deck for easy rinsing. Sliding feet also available (see Accessories).

Vortex™ Drain System

YETI®'s screw-in gasketed drain plug is leak-proof and rugged. It's designed to drain when partially open without having to fully remove the plug. The cooler floor is channeled and recessed for easy draining.

DoubleHaul™ Handles

You can't break the handles on a YETI®. They have a textured grip and are secured with marine-grade nylon rope. There's no slippery plastic to hold on to while transferring to a boat or a truck. Attachment points are integrated into the cooler body and keep handles out of the way when not in use.

KEEP ICE LONGER!

Keeping things cold is what a cooler is all about. With thicker walls, more than twice the insulation and a full-frame gasket, YETI® out-performs the competition - it's not even close!

Thicker walls mean more cold-containing insulation.

The FatWall™ design of the YETI® Tundra™ puts two inches of premium PermaFrost™ insulation in the walls for maximum ice retention. You'll typically find just a 1/2 inch of insulation in ordinary coolers and maybe an inch in the more expensive models. The bottom line is that insulation thickness correlates to ice retention, and YETI® is second to none!

YETI® Coolers don't just close, they seal!

Unlike ordinary coolers, YETI® Coolers feature the ColdLock™ full-frame, freezer-quality gasket that seals around the entire lid to minimize air exchange. This seal, combined with our InterLock™ lid system, assures maximum, long-term ice retention.

YETI® Tundra™ Cross Section

FatWall™ Design

All YETI® Coolers feature extra-thick walls designed to house added insulation for maximum ice retention.

PermaFrost™ Insulation

YETI®'s proprietary PermaFrost™ insulation is pressure-injected, giving you exceptional thermal resistance for unmatched ice retention.

ColdLock™ Gasket

The YETI® ColdLock™ gasket minimizes unwanted air exchange, locking out heat while sealing in cold.

InterLock™ Lid System

A YETI® lid doesn't just rest on top of the cooler body - it interlocks. This creates an essential form-fitting barrier between your contents and the outside elements.

BearFoot™ Non-Slip Feet

Non-marking rubber feet keep your YETI® up off hot surfaces such as concrete or asphalt, minimizing heat transfer. Sliding feet also available (see Accessories).

*"Kept ice for 5 days
in 100-plus degree heat!"*

*– Arnie Chandola
Northwest Voyageurs*

**DRYICE™
COMPATIBLE**

*"Held ice for 6 days in
the Texas heat. Imagine what it
would do in New York City."*

– Hoke Bullock, Marathon, TX

*"Using dry ice in my
YETI allows me to stay in
the field twice as long, which
means better trips for my clients."*

– Brandon Boedecker, PRO Outfitters

**"Over three days in the blistering
summer heat and it still had ice in it!
What a quality product!"**

- Don Kisky, Whitetail Freaks

Tips To Maximize Ice Retention*

- 1. Pre-cool your YETI®** – When starting with a warm cooler, a lot of ice is required to lower the core temperature of the heavily insulated walls. Prior to loading your YETI®, store it in a cool environment or use a sacrificial bag of ice.
- 2. Use quality ice** – Ice can get much colder than its freezing point. Warm ice (near 32°F) is typically wet to the touch and dripping with water. Cold, sub-zero ice is relatively dry and will last substantially longer.
- 3. Freeze or pre-chill contents** – Prior to loading your YETI®, freezing or pre-chilling cooler contents like meat or beverages will help your ice last longer.
- 4. More ice is better** – We recommend filling your cooler with as much ice as possible. Ideally you want to have an ice to contents ratio of at least 2:1.
- 5. Use dry ice** – YETI® Coolers are **Dry Ice Compatible™** and can handle the extremely low temperature (-109°F), whereas ordinary coolers become brittle and crack. Dry ice provides approximately 3X the cooling power of regular ice and leaves more room for contents.

**Due to the known variables that affect ice retention, and because every adventure is different, YETI Coolers makes no claim to the number of days your cooler will hold ice. Your understanding of these factors is the key to maximizing ice retention. For more information on ice retention, please reference your YETI® Owner's Manual. (also available online at www.yeticoolers.com/owners-manual)*

“FROM HOMESTEAD TO HOUSTON”

“If you put all the coolers that I’ve bought throughout my lifetime end to end, you’d have coolers from Homestead to Houston... Now why would YETI® come along and ruin a perfectly good consumer like myself?”

– **Flip Pallot**

Legendary fisherman

Everything I Need

"As a drift boat guide who is on the water 150+ days a year, I demand high performance, quality, and longevity out of my gear. YETI Coolers, which I first discovered fishing in the Florida Keys, provide everything I need in an ice chest. Once seasoned with ice, it stays cold all summer long."

- Mark Raisler
Headhunters Fly Shop

All the Pros Agree

"No matter if I am offshore or inshore, I need equipment that will perform under the toughest conditions while preserving valuable deck space. YETIs are tough, they keep ice longer, and they make the ultimate casting platform. Whether in front of the center console or underneath the rocket launcher, there is always a YETI to meet my needs. All the pros agree: YETIs are the best."

- Rick Murphy
Florida Insider Fishing Report

Out Of The Equation

"Over the past 10 years, I have destroyed many coolers and spent thousands on ice. Since putting a YETI in my skiff, the worry of normal cooler wear and tear has been taken out of the equation..."

- Jacob Shemper
Key West on the Fly

Tough As Nails

"YETI Coolers are truly incredible, easy to use as a casting platform or as a seat. I found them to be very well built and tough as nails. I've never spent so little on ice."

- Jose Wejebe
Spanish Fly

Most Durable Ever

"YETI Coolers are the most durable ice chests I have ever owned! We use them on our guide boats every day and they look like new, keep ice for a week and make great casting platforms."

- Rich Tudor
Saltwater Experience

Add Ice and Forget About it

"Charter fishing for over 30 years, I've learned that every fish matters! We take time to ensure the survival of all the fish we release and more importantly the freshness of the fish we keep. YETI Coolers provide the best insurance that a hard day's work on the water is rewarded with the freshest catch back on the dock. Plus being virtually indestructible, they are always ready to go, just add ice and forget about it."

- Scott Walker
Into The Blue

Day In, Day Out

"As hard and as much as we fish in the Florida Keys, I need a cooler that performs day in and day out. Other coolers would only last one season. My YETI is on its third season - it still looks and works like new."

- Steve Rodger
Into The Blue

Perfect Shape

"I've dragged coolers packed with camera gear and other breakables to over 80 countries and I've got a small mountain of them with broken latches, broken hinges, cracked liners, and worn off bottoms. I bought 3 YETI Coolers several years ago, and they're still in perfect shape. Plus, they hold ice for days. Sure wish they'd been around 20 years ago, it would've saved me a small fortune!"

- Larry Dahlberg
Hunt for Big Fish

YETI[®]

PROS

"I now wonder what I did before I had a YETI."

Lifetime Investment

"In my world, a cooler is as important as a home refrigerator. Coolers have to be much more than just a place to keep cold drinks. They have to be a seat for a 300 lb man and a casting platform. I used to buy coolers frequently as the lids would be destroyed and they would no longer hold ice. No more! I have a YETI now; a lifetime investment."

- Tom Rowland
Saltwater Experience

“NOTHING COMPARES TO YETI”

“When I’m in the wilds of my Yukon moose territory, I need the toughest coolers on the planet to keep our supplies safe and fresh. Nothing compares to YETI.”

– Jim Shockey

Don & Kandi Kisky

Like No Other

"We log lots of miles each year pursuing deer, elk, and all sorts of other big game. Being tough on our gear just comes with the territory. Thanks to YETI, we never have to worry about melting ice, spoiling meat or broken coolers. YETI does the job like no other! Everyone else is playing for second place!"

- Lee & Tiffany Lakosky
The Crush

Hunt Longer

"Knowing the ice in my YETI Coolers will still be frozen when I return to the trailhead, I am able to hunt longer and farther into the wilderness. With a YETI, I know that the meat that I have harvested will be kept ice-cold until I'm able to get it out of the mountains."

- Mark Seacat
Seacat Creative

Performance

"Chasing big bucks from New Mexico to Saskatchewan, we demand the highest level of performance out of our gear. YETI Coolers protect our meat and capes en route to the processor and stand up to rugged abuse in the field. We don't leave home without them!"

- Pat & Nicole Reeves
Driven TV

Armored Truck

"Insulated to the hilt and built like an armored truck! Finally, a cooler tough enough for serious outdoor use. YETIs are not only durable, but best of all they keep ice like no other cooler. Get a YETI and you'll be out of the cooler market for years!"

- David Morris
The Bucks of Tecomate

Working Flawlessly

"My life is dedicated to breaking, abusing and destroying sporting goods of every description. My YETI Coolers take everything I give them and just keep on working flawlessly. Like me."

- Ted Nugent
Spirit of The Wild

Everything We Could Dish Out

"If a piece of gear can survive a season with us, then it is pretty well indestructible. Our YETI Coolers handled all the abuse we could dish out and far exceeded all of our expectations. Not to mention, the name seems fitting for our style: bold, tough, and wild."

- Phil Robertson
Duck Commander

Go Buy Your Own

"I never really knew there was such a big difference in the quality and effectiveness of a cooler until I got a YETI. Makes all my other coolers seem very temporary. Everyone always wants to borrow my YETI. I don't blame them...but go buy your own."

- Jay Gregory
The Wild Outdoors

Blistering Summer Heat

"We always thought all coolers were created equal, but were in disbelief when we got our first YETI. We packed it full of ice and left it in the blistering summer heat. Three days later it still had ice in it! What a quality product! We love our YETI."

- Don & Kandi Kisky
Whitetail Freaks

YETI[®]

PROS

"As professional guides we want professional equipment. YETI Coolers are definitely professional grade!"

- Rick & Julie Kreuter, Beyond The Hunt TV

Top in Class

"I've never seen a product that is so far advanced from others in its category, truly top in class. There is absolutely no match for a YETI."

- Jeff Simpson

YETI®

TRUE BELIEVERS

Best Coolers on the Planet

"I took a trip with a couple of buddies to Big Bend National Park. We used two YETI Coolers, a Tundra 65 and a Roadie. The trip was five days in the summer. Both coolers kept our food, steaks and beer cold the whole time! Best coolers on the planet!"

-Ross Kennedy, Texas

YETI in Iraq

"While deployed to Iraq, my YETI would keep ice for two to three days in the desert sun, while the other guys' coolers would have to be filled twice a day. I would have to lock the cooler so people could not steal my cold water. I love my YETI and would not trade it for another."

-SSG Robert Harris, U.S. Army

Redfish Beware

"It gets HOT in the Lowcountry marsh, and I need a cooler that I can rely on to keep my beverages nice and cold. YETI has fulfilled that need and then some. The cooler was designed strong so it can also be used as an elevated casting tower - redfish beware!"

-Capt. Jay Nelson, South Carolina

YETI for Life

"Bought a YETI... Threw 10 Igloos out the next day and haven't looked back! Tough as hell! Look at the build quality and you will realize you wasted money buying cheaper coolers that have broken latches, hinges, handles, drain plugs, etc... You can buy one YETI for life!"

-Sportsman Forum

Best Product On the Market

"I like to ice my venison for at least a week before I process it. I recently bought a Tundra 120 and placed a quartered whitetail in it. After adding ice and sealing up the Tundra, my venison literally stayed frozen for a week and a half without having to add any more ice. Thanks for making the best product on the market."

-Chad Bell, Louisiana

The Only Cooler We Carry

"The combination of unstoppable products and superior customer service is why YETI Coolers are the only coolers we carry. They are absolutely bomber and keep ice longer than any other cooler on the market."

-Andrew Martineau, Adipose Boatworks, Montana

Never Before Seen

"All I can say is WOW! I took my flats boat to the Bahamas and had a rough trip over in the hot sun for two days. When we set up to snapper fish, all the ice and 6 blocks of chum in my YETI were one big frozen block! I had never seen that before with any other cooler!"

-Capt. Russell Kleppinger, Florida

Icy Cold Beverages

"I use my Tundra 65 as a poling platform on my skiff. My YETI is durable, rugged, and keeps my beverages icy cold during a long day fishing on the Mississippi coast. I don't go fishing without it."

-Tom Warren, Alabama

Bombproof

"This YETI cooler really is the last cooler you will ever have to buy. I own and operate a fishing and hunting lodge on the Bighorn River in Southeast Montana. The temperatures during the summer months frequent the high 90's. These coolers keep ice for multiple days even in those temperature ranges. Also, these coolers are truly bombproof. Fishing and hunting guides are definitely a true test for gear durability, and these coolers hold up!"

-Matt McMeans, Kingfisher Lodge, Montana

Weekend Warrior

"YETI has, without a doubt, set the bar to an unreachable level. These coolers blow every other cooler out of the water. The days of loading up with ice every morning are a thing of the past. We fill it up on Friday when we arrive, and everything in the cooler is still ice cold Sunday when we leave!"

-Brad Young, Texas

On and Off the Water

"Proven, durable, top-quality, ergonomic, ice-cold... these are all terms that define a YETI Cooler. Without a doubt, the absolute best coolers I have ever used on and off the water."

-Honson Lau, Florida

Through Hell and Back

"I've had my YETI for over a year and a half now and absolutely love it. Being a college student, I put the thing through hell and back and it stands strong. From keeping my beers cold on the weekend, to keeping the reds and specks cold on the boat on a hot August day, the YETI does its job better than any other cooler I've ever used."

-AJ Cabana, TFM, Alabama

Grand Canyon Tough

"We managed to fit two YETI Tundras onto our raft. They survived three flips, several days of hail and lightning storms, lots of 90-degree days, and kept the dirt out and the ice in, for 20 days in the Grand Canyon."

-Hildie Oliver, Oregon

Only a YETI

"My YETI is the only cooler that can keep ice for days in the 90-degree-plus weather in Venice, LA! It keeps my customers' fish fresh and gives them a stable platform to sight cast for redfish. Only a YETI!"

-Chuck Anderson, Louisiana

Tie-Down Kit ★

Our #1 mounting system! Secure your YETI® Cooler in a boat, truck bed, trailer, or barbecue rig with the YETI® Cooler Tie-Down Kit. When not in use, only the low profile deck plates remain, leaving nothing to trip over. Kit includes two nylon straps with stainless steel cam buckles, deck plates and mounting hardware. All hardware is marine-grade stainless steel.

Security Cable Lock & Bracket ★ NEW

Protect your investment! The YETI® Security Cable Lock & Bracket are perfect for securing your YETI® in a truck-bed or any other area where your YETI® is vulnerable to opportunistic street thugs.

Aluminum Brackets

Keep your YETI® in place on your boat using permanently mounted brushed aluminum brackets custom made for your cooler. No straps or bungees mean easy loading and removal. Marine quality anodized pipe construction provides durability and longevity.

Sliding Feet NEW

Need your YETI® Cooler to slide? Simply replace the BearFoot™ Non-Slip Feet with these hard plastic Sliding Feet. Marine-grade stainless steel hardware included.

Corner Chock Set

Secure your YETI® with heavy-duty rubber Corner Chocks. Rubber provides excellent, non-abrasive support and can withstand years of wear and sun exposure. Kit includes 4 rubber Corner Chocks, 2 marine grade bungees and stainless steel mounting hardware.

SeaDek® Slip Resistant Pad ★

This durable, slip-resistant SeaDek®, made from 6mm EVA foam, provides excellent traction and extreme comfort when using your YETI® as a standing or casting platform. The higher you are off the boat deck, the further you can see down into the water. SeaDek® attaches permanently with a pressure sensitive adhesive backing. Custom fit for all YETI® Tundra™ models up to the Tundra™ 155.

Seat Cushion - White ★

Your YETI® can do double duty. The YETI® Cooler seat cushion has at least two inches of dense foam and is made of tough, white, UV marine vinyl stitched with GORE® TENARA® Sewing Thread. Screw the included studs into the cooler lid and snap the cushion in place. All hardware is stainless steel.

Seat Cushion - Camo ★

Perfect for the duck boat, dove field, deer camp or high-rack, these Realtree® Advantage Max-4 HD seat cushions are made of durable 600 denier fabric and stitched with long-lasting GORE® TENARA® Sewing Thread. Screw the included studs into the cooler lid and snap the cushion in place.

SeaSucker® Tie-Down Kit NEW

Easily attach these vacuum-cup mounts to your boat (or other smooth surface) without using screws or creating unwanted drill holes. Once the SeaSucker® is mounted in place, secure your YETI® with the provided tie-down straps to the custom-tailored D-rings.

Cooler Slides

Perfect for mounting coolers under leaning posts, outdoor bars, etc. YETI® Cooler Slides allow easy access to your cooler when stowed in hard to reach places. These sliding tracks are made from StarBoard® and marine-grade fittings. Tie-Down straps and mounting hardware included. Custom fit for YETI® Tundra™ models up to the Tundra™ 155.

Drain Plug Hose Connection

This drain plug adapter allows you to drain your YETI® with a garden hose while it remains in place. The male end of the hose connection fits most standard hoses. When not in use, simply attach the provided cap as a leak-proof plug.

Bear Proof Lock ★

Long shank Master Lock® protects your contents and certifies your YETI® as a bear resistant container. Also keeps friends out of your beer!
